### DRAW BAMBI IN 7 STEPS

The following should be done in pencil.

**Step 1.** Draw a very simple oval, then add a center line vertically and horizontally to establish Bambi's eye-line. Establish the main direction of Bambi's body by gently drawing a long, loose "S" shape.

**Step 2.** Draw a small oval to establish Bambi's chest. Draw another oval horizontally, to establish the rear of his body.

**Step 3.** Add Bambi's legs. As a young fawn, he has long, skinny legs. Follow the "S" line to establish Bambi's hind legs which will reach out in an upside-down "V" shape.

**Step 4.** Indicate where Bambi's ears are by drawing a sharp oval and a triangle shape. Add Bambi's tail in the shape of a small banana.

**Step 5.** Now add detail to Bambi's face by defining his small nose, his muzzle and his eyes.

**Step 6.** Refine Bambi's ears. Add details to his eyes. Establish Bambi's chest. Add a bit of fur all around.

**Step 7.** Finally, add the details which will complete Bambi such as defining his spots and fluff-up his fur a bit. Don't forget to add his hooves, then shade in his eyes and darken his nose.
