

Disney  
MOANA

# Seashell picture frame

**1**  
Find a blue  
or turquoise  
wooden frame.

You can also paint a  
white frame with wood  
safe paint!

**2**  
For the  
worn beach look,  
sandpaper down the  
corners and some of the  
edges to reveal the wood  
or white underneath

**4**  
Use a strong glue  
to glue down all the shells  
in a whimsical pattern

**3**  
Lay the frame flat  
and arrange different size  
shells around it. They can  
poke out over the edges on  
the top and sides. You can  
also add bits of beach glass  
or plastic pearls

**5**  
Put in a photo  
of you and your family  
or friends. I bet Gramma  
would look great in there!
